

Orchids

Charlesworth & Co. N.Y.C.

BIRD'S-EYE VIEW OF OUR NURSERY AND OFFICES.

INTRODUCTION

HAYWARDS HEATH,
SUSSEX, 1910.

In asking your acceptance of our 1910 Catalogue, we venture to thank you and our very numerous patrons for their valued and continued support and to solicit recommendations to all interested in Orchid culture.

We beg to call special attention to our large and choice stock of *Brassocattleya*, *Brassolælia*, *Brassocattlælia*, *Cattleya*, *Læliocattleya*, *Soprocattleya*, *Soprocattlælia*, which will commend itself as being the most complete ever offered, when we state that the plants are actually in Stock, and not a list compiled from those raised and put on the Market by different growers.

Our choice and varied Stock of *Odontoglossums*, both species and hybrids, we would also call your attention to. The hybrids especially of this lovely genus are fast becoming "First Favourites" to those preferring a display of bloom all the year round, to a few extra choice expensive kinds which can only be allowed to flower occasionally if the plants are to be kept in perfect health.

Our collection of *Cypripediums* will be found to contain a good selection of the best and most up-to-date kinds.

The albino and fine varieties of *Cattleyas* are also a very interesting feature, and our collection of what are popularly called botanical orchids is probably the finest to be found in any Trade Establishment.

Valued new additions to our Stock are constantly being made, including everything new and interesting. We therefore invite correspondence for all requirements.

All plants are guaranteed true to name and description, but should clients upon receipt of plants be in any way dissatisfied, they may be returned to us at once; also should any plant flower untrue to name or description, the purchase money shall be refunded if desired, with 5 per cent. added interest and no further claim admitted.

PAINTINGS. We employ upon our permanent staff a most qualified and experienced Artist, and we shall be pleased to undertake the painting of any Orchid flower or plant at a reasonable charge, the work being most beautifully and accurately finished to the most minute detail. Specimens of work may be seen upon application.

ORCHID GROWERS AND ASSISTANTS. Having at all times competent men in our Establishment and upon our books, we shall have much pleasure in recommending growers of proved ability and integrity.

IMPORTANT. We should be pleased to instruct one of our experienced and practical representatives to wait upon any lady or gentleman, to give advice upon selection, cultivation, etc., and upon the adaptability of existing structures to Orchid growing requirements.

PACKAGES. Half-price allowed for empties returned carriage-paid.

Telegraphic Address : Charlesworths, Haywards Heath.
Telephone No. 50 P.O. Haywards Heath. Code : A.B.C. 4th Edition.

Railway Station, Haywards Heath (L.B. & S.C. Railway), from London Bridge and Victoria Stations.
A conveyance shall meet visitors upon intimation being given.

CONTINENTAL BRANCH : Rue Gérard, BRUSSELS.
Representative : Mr. E. Bohnhof, 43 Rue Gérard, Brussels.

 We cordially invite you to a visit of inspection.

LIST OF SUNDRIES.

We shall be pleased to supply any sundry not mentioned in this list.

The following are all of the finest quality, we can highly recommend ; having used them ourselves for a number of years with the best results.

A.I. FIBRE. Specially recommended, as being the finest and most durable material yet used for all Orchids.
10/6 per bag.

OSMUNDA FIBRE. 8/6 per bag.

OAK LEAVES. Very clean. 1/6 per bag.

PEAT. Best fibrous. 12/6 per bag.

LEAF SOIL COMPOST. We are prepared to supply the mixture as used by us, consisting of a portion of leaves, peat fibre, moss, etc., made ready for use. 15/0 per bag.

LEAF SOIL. Prepared ready for mixing with other material. 10/6 per bag.

SELECTED SPHAGNUM MOSS. Thick-headed and green, the best moss obtainable. 3/6 per Bushel, 10/0 per bag.

SILVER SAND. Very best coarse. 2/6 per Bushel.

CHARCOAL. Ready for using. 2/6 per Bushel.

ORCHID PANS. Without side holes, only the small holes for suspending.

4	5	6	7	8	9	10	11	12 inches
1/3	1/6	1/8	2/6	3/6	4/6	5/6	7/0	8/6 per doz.

FLOWER POTS. Neatly made, very porous, a cheap and serviceable pot.

S72's	L72's	S60's	M60's	L60's	54's	48's	40's	32's
2	2½	3	3½	4	4½	5	5½	6 inches
2/6	2/9	3/0	3/0	3/0	3/3	3/6	3/9	4/0 per cast.

CELLULOID LABELS. Very durable. 4-in., 5/0 per 100 ; 5-in., 6/0 per 100. Larger sizes if required.

LATH ROLLER BLINDS (our own Manufacture). 1/9 per square yard. We do not undertake the painting of blinds. In ordering, kindly state if for rolling along the house or by pulleys and cords. We shall be pleased to give further particulars and estimates on application.

CLIPS AND RINGS for repairing lath blinds, 2/6 per lb.
